

Career Opportunity: Deputy Registrar

Like you, we know there's nothing better than the power of a great team!

Be part of a regulatory body that embraces possibilities, rather than limitations.

If you're ready to step into a regulatory leadership role that genuinely matters, we want to hear from you!

About the College

At the College, we are a dynamic, innovative, and collaborative team committed to protecting the public interest and fostering confidence in the safe, competent, and ethical delivery of diagnostic and therapeutic care. Our over 2,700 dedicated registrants serve across five distinct professional specialties within two key groups: Medical Radiation Technologists (MRTs) and Electroneurophysiology Technologists (ENPs).

About the Role

As a newly created role for the College, the Deputy Registrar is a pivotal role and is the next in command on the regulatory side of the College. Reporting directly to the Registrar & CEO, the Deputy Registrar provides executive leadership and oversight in registration, competence, education, and regulatory policy development.

As the Deputy Registrar, you will be responsible for supporting the effective functioning of the College and ensuring that our regulatory operational practices align with the *Health Professions Act*, applicable regulations, and best practices in health profession regulation. Your portfolios will include:

- Strategic and Executive Support
- Registration Oversight
- Education and Competence Programs
- Policy and Regulatory Development
- Communication and Stakeholder Engagement
- Information Governance and Privacy

The Right Person

- You are known for finding solutions in unlikely places.
- As a big-picture thinker, you challenge assumptions and bring perspective; where others see roadblocks, you see pathways.
- Your experience has taught you to jump into gaps and that execution means being disciplined, organized, practical, versatile and calm in the face of rapid change.
- Being a strong communicator, you can push back constructively and navigate ambiguity.
- As a leader, you are both comfortable taking the lead and supporting quietly behind the scenes.
- You bring progressive leadership experience in a regulatory, health, or public-sector environment, with experience managing policy development and legislative compliance initiatives.

Compensation, Benefits, and Work Environment

The College offers a respectful, collaborative, and purpose-driven work environment. We value professional growth, integrity, and innovation in everything we do. Competitive compensation and benefits are provided in accordance with experience and qualifications. The role is located in Edmonton, Alberta and may be eligible for hybrid work arrangements after successful completion of the orientation phase.
